SUBMISSION GUIDELINES:

ODEL practitioners and scholars who are interested in making a panel or paper presentation should submit an abstract:

Panel Proposals – Submit a session abstract of not more than 350 words and individual paper abstracts (maximum of 350 words per abstract);

Paper Proposals – submit an abstract of not more than 350 words.

Both panel and paper abstract should be research-based and should have not been accepted and/or presented at any professional meeting, nor be currently under review for presentation at another professional meeting.

Abstracts should be written in English, the official language of the event. The abstract must convey the topic's importance and relevance to the conference theme.

All papers will go through a double blind-review process. The first author of accepted abstracts of panel and paper proposal will be notified of the results of the review process.

Authors are required to register for and attend the conference to present their paper if they are accepted. Only registered authors with accepted abstracts will be given a presentation slot.

Authors with an accepted abstract should submit a full paper (must be between 3,000 and 4,000 words excluding the title and author's details).

Full papers submitted will be included in the conference proceedings if at least one author has registered for the conference.

Submit through the EasyChair conference systems at <http://bit.ly/icodel2018>.
