Dengue Prevention & Arrival Information

Exchange Students｜TEEP, IIPP & Other Short-Term Programs

Please follow the steps below after confirming your arrival information.

STEP 1｜Complete the Arrival Information Form

Please complete the form as soon as your arrival information is confirmed.

🔗 **Arrival Information Form**
https://forms.gle/EtW5GJuM5vGyg2sb7

STEP 2｜Complete Dengue NS1 Screening

You are required to complete a **Dengue NS1 blood screening test** **within 3 days of entering Taiwan**.

⚠️ **Failure to comply may result in a fine of NT$3,000–15,000.**

Screening Location:
Sanmin District Second Public Health Center, Kaohsiung City
（三民區第二衛生所）

Address:
No. 222, Sanmin St., Sanmin District, Kaohsiung City 807, Taiwan

STEP 3 | 14-Day Self-Health Management

Please monitor and record your **body temperature and health status twice daily for 14 days** after arrival:

🌅 **Morning:** 6:00 AM–10:00 AM
🌙 **Evening:** 6:00 PM–8:00 PM

If you have any health concerns or questions, please contact the **Division of Health Service (bluesea@kmu.edu.tw)** and **Office of Global Affairs ((reachkmu@kmu.edu.tw)** immediately.

STEP 4 | Join the Dengue Prevention LINE Group

Please join the **"KMU-Foreign Student-Dengue Prevention"** LINE community:

🔗 https://line.me/ti/g2/sMD81mkU7fFbmyuq0Gv23F5p1K6UoePcWQyETA

After joining, please send a message including:

- **Student ID** *(If you do not have one, you may omit this.)*
- **Full Name**
- **Estimated Arrival Date**

✅ Exchange Student Checklist

- ☐ Complete the **Arrival Information Form**
- ☐ Complete **Dengue NS1 screening** **within 3 days of entry**
- ☐ Record **body temperature & health status twice daily for 14 days**
- ☐ Join the **Dengue Prevention LINE Group**
- ☐ Contact **Health Service (bluesea@kmu.edu.tw) / OGA (reachkmu@kmu.edu.tw)** immediately if you have any health concerns

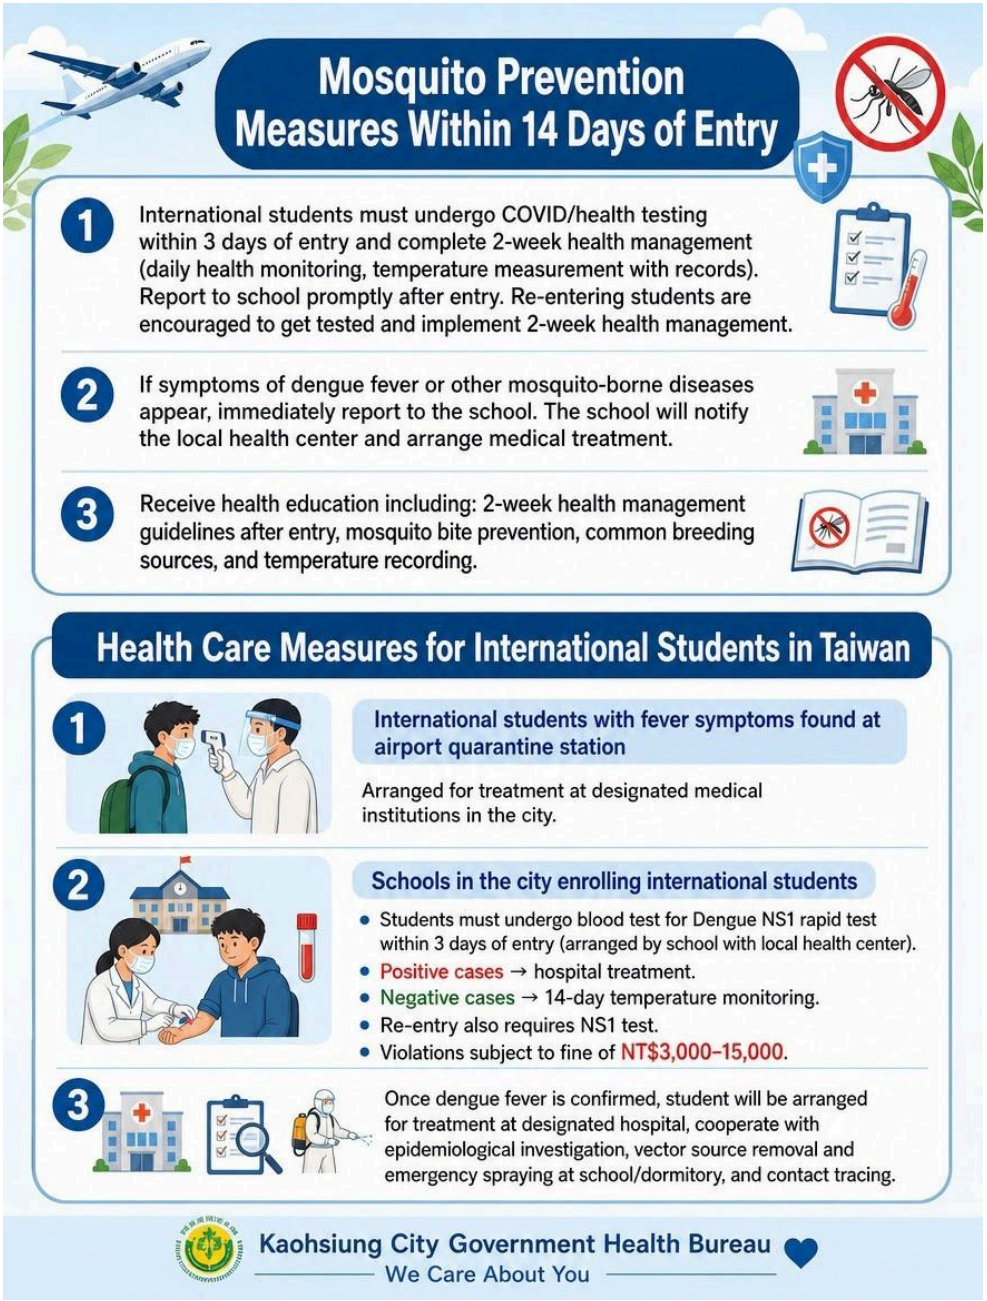

Thank you for your cooperation in protecting your health and helping prevent dengue fever on campus.

Dengue Prevention Compliance Measures

Dengue Prevention Compliance Measures

Inbound Management Flowchart for International Students from High-Risk Dengue Fever Countries

Management Process for Entry from High-Risk Dengue Countries/Regions

Kaohsiung City Government Department of Health cares for you. Epidemic Prevention Guidelines for International Students (Overseas & Oversea Chinese Students) of the 115th Academic Year

防疫指引

Legal Penalty Warning: In accordance with the Communicable Disease Control Act, any international student required to undergo Dengue NS1 screening who refuses, evades, or fails to complete the test within the deadline, shall be subject to a fine of NT$3,000 to NT$15,000 according to law.

115th Academic Year New Students — Mandatory Screening

1. **Within 30 Days before Entry (Pre-departure)**
   Complete university-coordinated flight/date survey and expected arrival; clean up standing water containers at residence; prepare long-sleeved clothing and mosquito repellent.
2. **Within 3 Days after Entry (Mandatory Screening)**
   University coordinates screening locations, assisted by local district health centers to complete Dengue NS1 rapid test.
   ※ Failure to complete screening as required can result in a fine up to NT$15,000.
3. **Handling Screening Results**
   - Positive: Immediate arranged isolation and treatment at designated medical institution, plus coordination with epidemic investigation and dormitory sanitation.
   - Negative: Continue 14-day self-health monitoring.
4. **14-Day Self-Health Monitoring after Entry**
   Take daily body temperature records, implement mosquito protection measures. Seek immediate medical attention at a school or hospital if symptoms occur, e.g., fever, headache, muscle pain, skin rash.

Returning/Re-entering Students — Self-Health Monitoring/ Special Rewards

1. **Before Departure/Returning to Home Country**
   Visit local health centers to obtain free mosquito repellent; actively inform the school about entry itinerary and health status before returning.
2. **Asymptomatic: Screening within 14 Days after Entry**
   Asymptomatic students can voluntarily visit local district health centers or university-coordinated screening points for Dengue NS1 rapid tests within 14 days of entry.
3. **Symptomatic: Immediate Medical Care within 2 Days**
   If symptoms like fever, joint pain, retro-orbital pain, muscle pain, nausea, or rash appear within 2 days after entry, seek immediate medical attention and voluntarily inform them of travel history.
4. **Implementing 2-Week Mosquito Protection and Health Monitoring**
   Wear light-colored long-sleeved clothing, use mosquito repellent, and cooperate with regular university body temperature checks and self-health management.

Returning from High-Risk Countries, Asymptomatic & Completed NS1 Screening within Timeframe (Eligible Conditions), receive a NT$500 Voucher!

List of High-Risk Dengue Fever Countries and Regions

* Southeast Asia (11 Key Countries, Priority Screening within 3 Days for New Students)
Vietnam, Indonesia, Philippines, Thailand, Singapore, Cambodia, Malaysia, Laos, Myanmar, Brunei, Timor-Leste

Asia	Vietnam, Indonesia, Philippines, Thailand, Singapore, Cambodia, Malaysia, Laos, (Ksy countries, Philippines, Singapore, Cambodia, Malaysia, Laos, Myanmar, Brunei, Timor-Leste)	Americas	All listees all listed American countries, Americas, Americas, Conaras, Countries, Aarania, Calovana, Paratios, Thailand, irolland, Banpina, and South Anfrica
Africa	All listoes all listed Africkan countries, Africa, Bousia, Germania, Eupanaisoan, Africana, Connoda, Dtimanaaiant of Africa	Oceania	All listees all listed Philippines, Thailand, Malaysia, Oceanic countries

Dengue Fever Health Education and Common Symptoms

Common Clinical Symptoms

- Sudden high fever (≥38°C), headache, retro-orbital pain
- Muscle pain, joint pain, bone pain (known as "breakbone fever")
- Nausea, vomiting, diarrhea, skin rash

* Incubation Period: 3-8 days. Viremia period is from 1 day before onset to 5 days after

Three Key Entry Quarantine Measures

1. Thorough Cleaning: Clear all standing water containers around dormitories to prevent vector breeding
2. Mosquito Protection Measures: Wear light-colored long-sleeved clothing and pants, use mosquito repellent approved by the health department
3. Thorough Notification: If any discomfort, immediately inform the university health center/security or local health center for screening arrangement
